WILSON HALL

OUR MISSION

Mission Statement: Wilson Hall is a college-preparatory school dedicated to providing a rigorous and well-balanced education in a safe Judeo-Christian environment.

Wilson Hall is guided by a clear and purposeful mission: to prepare students for success in college and in life beyond our campus. Through strong academics, meaningful relationships, and a focus on character, faculty members encourage students to develop the ethics, values, and confidence needed to become responsible and productive citizens. Recognizing that a quality education extends beyond the classroom, Wilson Hall also promotes community service, extracurricular involvement,

OUR HISTORY

Wilson Hall's story began in 1964, when a group of community members came together with a shared vision: to provide their children with an exceptional education in an environment shaped by discipline, camaraderie, and a commitment to achievement. By 1966, the school's by-laws had been adopted, and Wilson Hall was named in memory of John Snowden Wilson, a member of the founding group. In the fall of 1967, the school opened its doors to 86 students in grades 1-6 in a single building on land donated by the Dinkins family.

Today, Wilson Hall serves approximately 850 students in Preschool 3 through 12th grade on a 17-acre campus with six buildings. From its humble beginnings, the school has grown into one of the largest and most respected private schools in South Carolina and is widely recognized as the premier college preparatory institution in the region.

ABOUT WILSON HALL

At Wilson Hall, students are prepared not only for college, but for the lives they will lead beyond our campus. Through a challenging academic program, dedicated teachers, and a supportive, family-like atmosphere, students are encouraged to grow into confident learners, thoughtful leaders, and young people of strong character. A Wilson Hall education is intentionally personal.

As a small school by design, we give teachers the opportunity to know their students well, to recognize their strengths, and to help them reach their potential. In our classrooms, students are challenged to think deeply, work diligently, and develop the skills they will need for success in college and beyond. Just as importantly, they are guided to become well-rounded individuals who value integrity, responsibility, kindness, and service to others. Wilson Hall also feels like home.

It is a place where students are known by name, where parents are welcomed, and where the campus remains full of activity long after the school day ends. Students walk or ride their bikes to school, friendships grow across grade levels, and traditions help create a true sense of belonging. Daily devotions and prayer encourage faith, the Pledge of Allegiance fosters patriotism, and expectations for good manners, self-discipline, and respect help shape the character of our students.

Families choose Wilson Hall because they want more than a school. They want a place where their children will be challenged, supported, encouraged, and known. They want an education that develops the mind, strengthens character, and prepares students to lead with confidence, purpose, and integrity.

PRESCHOOL & KINDERGARTEN

A child's first school experience should feel joyful, safe, and encouraging, and Wilson Hall's preschool and kindergarten program is designed to make these early years a wonderful beginning. In a warm and nurturing environment, young students are introduced to school routines, early academic skills, friendships, creativity, and play, all while being cared for by teachers who understand the importance of these first steps.

The 3-year-old preschool is for students who turn three by September 1 and meets five days a week from 8:10 AM until 12:00 PM. This structured,

age-appropriate program introduces children to beginning math, reading, and writing concepts through hands-on learning and purposeful play. Students also develop important social skills, such as sharing, listening, taking turns, and being part of a group, through classroom stations, organized play, and time on the playground. Each week, students visit the art studio, library, music studio, and gymnasium for classes taught by specialized teachers.

The 4-year-old preschool is for students who turn four by September 1 and meets five days a week from 8:10 AM until 1:55 PM, with an optional noon dismissal. Building on the 3-year-old program, students continue developing math skills, begin writing, and build the foundation for reading. Hands-on learning and learning through play remain an important part of each day, helping students grow academically, socially, and emotionally. Students also visit the art studio, library, music studio, and gymnasium each week for classes taught by specialized teachers.

Kindergarten is for students who turn five by September 1 and provides a structured, supportive program that helps children develop confidence as learners. Students work toward mastering basic number concepts, letter recognition, early reading skills, and beginning writing techniques. Many kindergarten students are reading and writing simple sentences by the end of the first semester. As in preschool, learning through play and hands-on activities remains an important part of the experience. Art, music, physical education, technology, and library are also included in the kindergarten curriculum.

Preschool and kindergarten classes are self-contained, and each teacher has a full-time teaching assistant in the classroom. Located in their own special area of campus, our youngest students remain in their own building and enjoy playgrounds designed just for them. Please note that preschool and kindergarten students must be completely potty-trained before beginning school.

Wilson Hall faculty thoughtfully support student learning and provide appropriate classroom accommodations when possible. However, the school does not offer extraordinary academic programs for students with special needs.

ELEMENTARY SCHOOL

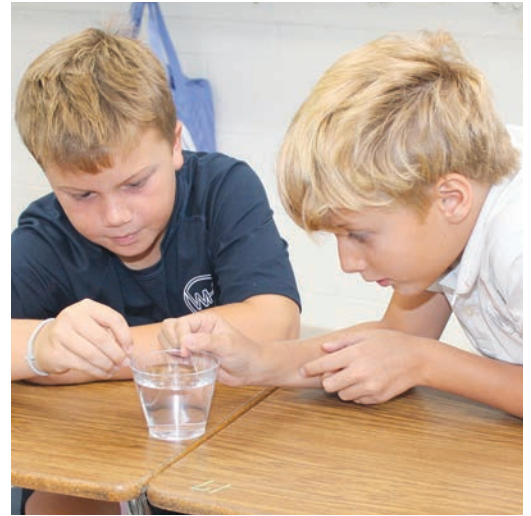

In grades 1-5, Wilson Hall provides a strong and joyful foundation for learning. Students build essential skills in reading comprehension, vocabulary, spelling, language arts, grammar, and mathematics, while social studies and science help broaden their understanding of the world around them. Traditional teaching methods remain central to the elementary experience, with textbooks, pencil-and-paper work, classroom discussion, hands-on activities, and teacher-led instruction forming the foundation of daily learning. Technology is used thoughtfully as a support when it enhances instruction.

Elementary students are encouraged to think critically, collaborate with classmates, communicate clearly through writing and speaking, and express their creativity through projects and hands-on activities. Each week, students also visit the art studio, library, music studio, gymnasium, and technology lab for classes taught by specialized teachers, making the elementary experience both well-rounded and engaging.

Classes in grades 1-4 are self-contained, while fifth grade students benefit from three teachers who specialize in particular academic areas, helping prepare them for the transition to middle school. Elementary students learn in their own building and enjoy a playground designed for their age group. With a low teacher-to-student ratio, students receive individual attention in a positive, encouraging environment where they are known, supported, and challenged.

The school day for grades 1-5 is from 8:10 AM until 2:10 PM.

Wilson Hall faculty thoughtfully support student learning and provide appropriate classroom accommodations when possible. However, the school does not offer extraordinary academic programs for students with special needs.

MIDDLE SCHOOL

Middle school is a time of growth, change, and discovery, and Wilson Hall provides a safe, supportive environment where students in grades 6-8 can thrive during these important years. As students grow from children into teenagers, teachers, coaches, and advisors work with them not only as learners, but as young people developing confidence, responsibility, independence, and a stronger sense of who they are.

A challenging, well-rounded academic program remains at the center of the middle school experience. Students receive a strong liberal arts education that includes English, literature, writing, mathematics, science, history, world languages, the arts, technology, and physical education. Through a seven-period schedule with different teachers for each subject, students build the organization, study habits, and independence needed for upper school. Traditional teaching methods, including textbooks, writing, discussion, direct instruction, and hands-on activities, remain central to the classroom experience. Technology, including school-provided Chromebooks, is used thoughtfully as a tool to support learning when it enhances instruction.

As a Science, Technology, Engineering, Arts, and Math certified school, Wilson Hall gives students meaningful opportunities to collaborate, solve problems, think critically, communicate clearly, and express creativity through projects and hands-on learning. Just as importantly, students are encouraged to read carefully, write thoughtfully, study history, appreciate the arts, and understand the world from many perspectives. Beyond the classroom, clubs, athletic teams, and leadership opportunities help students explore their interests, discover their talents, and become more involved in school life.

Housed in its own building, the middle school offers students a place where childhood is gradually left behind while the joy, wonder, and fun of learning continue into adolescence. The school day for grades 6-8 is from 8:05 AM until 2:35 PM.

Wilson Hall faculty thoughtfully support student learning and provide appropriate classroom accommodations when possible. However, the school does not offer extraordinary academic programs for students with special needs.

HIGH SCHOOL

Wilson Hall's high school program provides students with a challenging, well-rounded liberal arts education designed to prepare them for success in college and beyond. Rooted in a traditional college preparatory curriculum, students build strong foundations in English, literature, writing, mathematics, science, history, and social studies, while also exploring world languages, technology, visual arts, performing arts, and a wide range of electives that allow them to discover and develop their interests.

This broad academic experience helps students become thoughtful readers, clear writers, creative problem solvers, confident speakers, and independent thinkers. Traditional teaching methods, including textbooks, writing, discussion, direct instruction, and careful study, remain central to the classroom experience. Technology, including school-provided Chromebooks, is used thoughtfully as a tool to support learning when it enhances instruction.

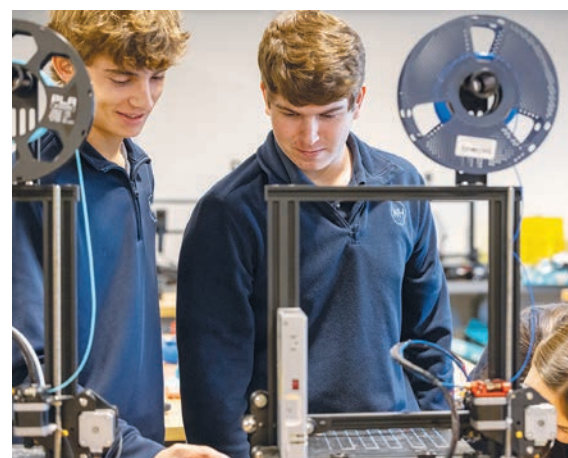

As a Science, Technology, Engineering, Arts, and Math certified school, Wilson Hall also gives students meaningful opportunities for hands-on learning, collaboration, critical thinking, communication, and creativity. These experiences complement the school's strong liberal arts foundation and help students make connections across disciplines.

Because Wilson Hall is a college preparatory school, and all students are accepted to a four-year college or university, courses are taught at an advanced level. Eligible students may also take honors and Advanced Placement courses for an even greater academic challenge. Wilson Hall offers 21 AP courses, more than any school in the area, taught at the college level by specially trained faculty members. At the end of the year, students may take nationally standardized AP exams and potentially earn college credit. For some students, this opportunity has made a significant difference, with graduates earning more than 30 hours of college credit before beginning college.

AP courses are especially valuable because the exams are nationally standardized and widely recognized by colleges and universities across the country. Many college admissions counselors value AP coursework because it demonstrates a student's readiness for college-level expectations.

High school students follow a seven-period schedule with different teachers for each subject, and the school day is from 8:05 AM until 2:35 PM.

Wilson Hall faculty thoughtfully support student learning and provide appropriate classroom accommodations when possible. However, the school does not offer extraordinary academic programs for students with special needs.

OUR FACULTY

At the heart of a Wilson Hall education are the teachers who know, challenge, and encourage their students every day. A strong curriculum is important, but it is the faculty who bring that curriculum to life, creating classrooms where students are supported, inspired, and expected to do their best. With intentionally limited class sizes, Wilson Hall teachers are able to know their students personally, recognize their individual strengths, offer meaningful support, and help each child grow in confidence and ability.

Families often discover that what makes Wilson Hall special is the relationship between teachers and students. Learning takes place in an atmosphere of genuine care, trust, and mutual respect, where students feel known and encouraged. Teachers give generously of their time, whether offering extra help after school, meeting with parents, leading review sessions, coaching teams, or advising clubs. Their influence extends well beyond the classroom, helping students develop not only as learners, but also as young people of character, responsibility, and purpose.

The strength of Wilson Hall's faculty is reflected in both the success of its students and the recognition its teachers have received. Wilson Hall teachers bring an average of 22 years of experience to the classroom, with an average of 15 years at Wilson Hall. The school is fully accredited by AdvancED and the Southern Association of Independent Schools, and teachers are either certified or teach in the area of their college major. In the South Carolina Independent School Association's Teacher of the Year recognition program, Wilson Hall has had 11 teachers named State Teacher of the Year, and 39 teachers have been selected among the top three finalists. For families seeking a school where their children will be known, loved, challenged, and prepared, Wilson Hall's faculty makes all the difference.

STUDENT LIFE

At Wilson Hall, some of the most meaningful learning happens beyond the classroom. Students are encouraged to enjoy a healthy balance of work and play, building friendships, discovering new interests, and becoming part of a school community that feels active, welcoming, and full of life. From pep rallies and Baron Games to Homecoming, Prom, Fall Festival, art shows, theater produc-

tions, and music programs, students have countless opportunities to participate, celebrate, and make memories with their classmates, teachers, and families.

Because Wilson Hall is intentionally small, students are not limited to just one activity or interest. They are able to become involved, try new things, and find their place in a wide variety of clubs, organizations, and programs.

Whether participating in Quiz Bowl, Fellowship of Christian Athletes, the spring musical, or one of more than 25 student organizations, students are able to connect with others who share their interests while also discovering new talents and abilities.

These experiences help students grow into well-rounded young people. Through activities, performances, competitions, and service opportunities, they learn to lead, encourage others, work as a team, and respect the gifts of their fellow Barons. For families looking for a school where their children will be known, involved, and excited to come each day, Wilson Hall offers a community where students can learn, belong, and thrive.

ATHLETICS

At Wilson Hall, athletics give students the chance to be part of something exciting, meaningful, and bigger than themselves. Whether stepping onto a field for the first time or competing for a championship, students learn the value of teamwork, sportsmanship, discipline, and the simple joy of playing a sport they love. With 44 teams in 16 sports, Wilson Hall offers students many opportunities to get involved, build confidence, form lasting friendships, and experience the renowned Baron spirit that brings students, parents, alumni, grandparents, and friends together in support of our teams.

Wilson Hall has a proud athletic tradition, including 78 state championships and three President's Trophy honors for having the most successful athletic program in the state. Recent state titles include girls bowling and speed & strength in 2026, as well as boys cross-country, boys bowling, girls bowling, and girls track & field in 2025. While the Barons take pride in competing at a high level, academics always come first. Student-athletes are expected to maintain academic standards in order to practice and participate, reflecting the school's commitment to helping students grow both in the classroom and in competition.

For many students, athletics become one of the most memorable parts of their Wilson Hall experience. Each year, graduates continue their athletic careers in college in sports ranging from football and baseball to tennis and cross-country. Some receive athletic scholarships, while others continue simply because they love the game. Wilson Hall is also proud to have more recipients of the Bill Simpson Award than any other S.C. Independent School Assoc. school, with 14 students earning this highest honor presented to the top male and female scholar-athletes in the association. For new students, Baron athletics offer a welcoming place to belong, compete, lead, and grow.

OUR CAMPUS

Wilson Hall's beautiful 17-acre campus in historic Sumter, South Carolina, provides students with more than a place to go to school; it gives them a true home away from home. Located in the western suburbs of Sumter, within ten minutes of Shaw Air Force Base and surrounded by well-established residential neighborhoods, the gated campus offers a safe, welcoming environment where students can learn, grow, and feel connected.

The campus itself plays an important role in the Wilson Hall experience. With manicured green spaces, shaded walkways, park benches, planters, gardens, and flowering trees and shrubs, Wilson Hall is widely regarded as one of the most attractive school campuses in the region. This well-cared-for setting helps create a strong sense of school pride among students, faculty, and families. It is common to see students gathered under the shade of a large oak tree to study after school, reading quietly on a bench in the memorial garden, enjoying lunch on the green, or playing on one of the three shaded playgrounds. The beauty and comfort of the campus help create an atmosphere that is calm, inviting, and conducive to learning.

Wilson Hall's facilities support every part of student life. The campus includes six brick buildings with academic classrooms, a library, science laboratories, technology and computer science labs, athletic facilities, a fitness center, two gymnasiums, performing and visual arts studios, a cafeteria, an after-school care center, a student center, and three playgrounds.

The school continues to invest in spaces that enhance the student experience. Its recently completed 25,000-square-foot addition, the largest construction project in school history, includes a chapel and meeting space, STEM classrooms, a fitness and wellness center, locker rooms and athletic facilities, a patio, and a rooftop garden. In 2025, Wilson Hall announced its largest campus expansion to date with the purchase of an additional six acres, ensuring that the campus will continue to grow along with the needs of its students.

ADMISSIONS

PROCESS

- Completed online application at wilsonhall.org
- Application fee of \$200.00 (\$500.00 for international students); fee is non-refundable unless the school cannot offer the applicant admission
- Completed entrance test (2nd-12th) or evaluation (PS4-1st)
- Copy of most recent report card (2nd-12th)
- Copy of unofficial transcript that includes all courses for which applicant has received high school credit, if applicable
- Copy of most recent national or state standardized test results, if applicable.
- Applications may be submitted at any time

REQUIREMENTS

- Score in the 70th percentile, in most cases, or above on a standardized test is preferred
- For applicants who have only taken a state test, advanced scores in reading and math are preferred but a minimum of proficient scores is preferred
- At least a C in core courses (English, math, science & social studies)
- Applicants for 2nd -12th grades must perform satisfactorily on an entrance test
- Applicants for the four-year-old preschool, kindergarten, and first grade classes must meet with a Wilson Hall teacher for a readiness evaluation
- Applicants for the three-year-old preschool - 1st grades must meet the minimum age requirements; September 1st is the cutoff date

INFORMATION

- Applicants for 6th - 12th grades may have to take an additional placement exam for English, foreign language, or math
- Applicants for 10th - 12th must have completed the necessary coursework to meet Wilson Hall's requirements for graduation
- The school may require, on a case-by-case basis, additional information before accepting an applicants
- Wilson Hall does not accept applicants who have been suspended and/or expelled from their current school
- The school does not offer extraordinary academic accommodation for students with special needs
- Three-year-old preschool applications should be submitted by January 31st, but applications will be accepted until the class is filled
- Preschool applicants must be completely potty-trained before the start of school
- 12th grade applicants must have an excellent academic record with the necessary coursework to meet Wilson Hall's requirements, and applicants must have earned at least the average SAT score of the Senior Class to be considered for admission
- 12th grade applicants from local schools are accepted only under special circumstances

MID-YEAR TRANSFERS

- Accepted for the three-year-old preschool- 5th grade
- Transfers for grades 6th - 8th will be considered in most cases, depending on the coursework the applicant has completed.
- Because the school does not offer partial credit for high school classes, mid-year transfers for grades 9th-12th are accepted only under special circumstances pending the ability to schedule classes for the student

POLICY

For classes that are not full, the Director of Admissions decides which applicants will be admitted based on the applicant's file and academic record. However, for classes that have more applicants than there are vacancies, the Admissions Committee will decide which applicants will be admitted.

Applicants for the three-year-old preschool will be granted admission based on the following order of priority: child of a Wilson Hall faculty member, applicant has an older sibling currently attending Wilson Hall, child of a Wilson Hall graduate, and date of application. The primary factor the Admissions Committee will consider when granting admission to the four-year-old preschool - 12th grade is the academic record or the academic promise of the applicant.

Once the applicant has met the academic standards required for acceptance to Wilson Hall, the following factors may also be considered by the Admission Committee prior to making their recommendation:

- Ability to pay tuition
- Assists in helping Wilson Hall's community responsibility
- Brings special talents or skills to the school
- Child of a Wilson Hall employee
- Child of a Wilson Hall graduate
- Date of application
- Helps diversify the student body
- Multiple sibling family
- Siblings attend Wilson Hall
- Supporters of the school

Wilson Hall does not discriminate based on race, color, national or ethnic origin in any of its policies, practices or procedures.

Before School Care (PS3-5th) 7:00-8:00 AM: \$3.00 per hour

CURRICULUM

GRADING SCALE

Wilson Hall uses the South Carolina Uniform Grading Scale Policy. Grades and GPAs are awarded on a 10-point scale with honors courses weighted an additional .5 point and AP courses weighted an additional 1 point. Only those courses completed at Wilson Hall are reflected in the Wilson Hall GPA. Credit

earned through other institutions does not affect the Wilson Hall GPA and does not appear on the Wilson Hall transcript.

A 90-100 | B 80-89 | C 70-79
D 60-69 | F 59-below

Wilson Hall ranks its students in accordance with the Uniform Grading Scale

policy as designed and approved by the Commission on Higher Education. Given the size of each class, the overall academic strength of our student body, and the rigorous curriculum required of each student, the school does not consider class rank a predictor of success in college.

REQUIRED COURSES

AP=Advanced Placement | CP = College Prep | H=Honors. All courses are year-long unless designated as semester or quarter courses

THE WILSON HALL FAMILY WELCOMES YOU

WE KNOW FAMILIES IN THE SUMTER AREA HAVE SEVERAL CHOICES WHEN SELECTING A SCHOOL, AND WE ARE GRATEFUL FOR THE OPPORTUNITY TO SHARE WILSON HALL WITH YOU. AS YOU EXPLORE THE BEST FIT FOR YOUR CHILD, WE HOPE YOU WILL DISCOVER THE WARMTH, OPPORTUNITIES, TRADITIONS, AND SENSE OF BELONGING THAT MAKE OUR SCHOOL SPECIAL. WE INVITE YOU TO VISIT, ASK QUESTIONS, AND LEARN MORE ABOUT BECOMING PART OF THE WILSON HALL FAMILY.

NOTICE OF NONDISCRIMINATORY POLICY AS TO STUDENTS

WILSON HALL DOES NOT DISCRIMINATE ON THE BASIS OF RACE, COLOR, NATIONAL OR ETHNIC ORIGIN IN ANY OF ITS POLICIES, PRACTICES OR PROCEDURES
